With a strong foundation in computer science, I quickly adjust to new programming languages and problem solving challenges. I push myself to achieve worthy goals and always try to turn work into fun. Most of all, I love to collaborate because working with amazing people has been the highlight of all my prior experiences.

SKILLS

- Proficient in C, C++, Java, Python, and R using IDEs like Visual Studio, R-Studio and Xcode
- Led as front-end developer for semester-long group project creating web app with React, Node.js
